

DEAFGARD

Will all your guests hear the fire alarm?

Under the mandatory terms of the Disability Discrimination Act, effective 1 October 2004, all hoteliers are legally obliged to make provision for the needs of the deaf and hard of hearing.

Using the latest technology, Deafgard is the safe, reliable and portable choice to communicate the sounding of a fire alarm to all guests.

- Wire-free technology solution
- System automatically activates when fire alarm sounds
- High-intensity flashing strobe provides visual indicator
- Under pillow pad vibrates to waken guests
- Incorporates alarm clock facility
- Ensures full compliance with DDA recommendations
- Ideal for hotels and other sleeping risk applications
