

Dorgard Series

Wedging open fire doors is illegal and dangerous. Dorgard is the safe, legal and cost-effective solution.

The Dorgard Series provides a wire-free solution for legally holding open fire doors in any position.

Dorgard features

- Installs in under five minutes. CE marked
- Improves access throughout buildings - in line with the Equality Act 2010
- Complies with BS EN 1155 and accepted by the Fire and Rescue Services
- Automatically releases fire doors when the fire alarm sounds
- Automatic night-time release and adjustable sensitivity
- Complies with BS 7273-4 category B

Dorgard

The battery operated Dorgard (with fail-to-safe technology) is suitable for normal working environments, e.g. schools, care homes, hotels and offices with an installed, automatic fire detection system.

Dorgard X

Dorgard X incorporates the very latest radio technology making it suitable for very noisy environments, e.g. bars, restaurants and public areas that have an automatic fire detection system installed.

Deafgard

The Deafgard system incorporates a moveable, wirefree, acoustically triggered bedside unit that enables deaf and hard of hearing people to be made aware (under pillow vibrating pad and high intensity flashing LED lights) - whilst they are sleeping.
